EXPERIENCE

Working Student

Scontain

Jan 2026 - Present

Dresden, Germany

- Part of the **RESMEDTEC** project, a government-funded collaboration between multiple companies, architecting **resilient and confidential healthcare workloads** using **secure edge computing** and Kubernetes-based strategies.
- Contributed to the enhancement of the **SCONE Kubernetes Operator**, automating secure enclave orchestration to strengthen workload integrity and reliability across distributed environments.

Intern

HCLSoftware

March 2025 - Sept 2025

Bengaluru, India

- Architected the migration of a legacy monolith to a **modular PBC-based system**, significantly enhancing scalability and deployment velocity.
- Engineered a **multi-node Kubernetes** and Docker infrastructure with full-stack observability, optimizing system reliability within Agile workflows.
- Co-developed the strategic **migration plan** and validated architectural feasibility through PoCs, successfully delivering a modernized tech stack.

PROJECTS

CODESOURCERER

Golang, Docker, Kubernetes, FluxCD, Helm, gRPC, Git Actions, Gemini API

November 2025

- Developed an **AI-driven automated test suite generation tool** for GitHub CI/CD pipelines, monitoring code changes in **real-time** to ensure test coverage with every push.
- Designed a modular microservices architecture (proxy server and GitHub App) for seamless integration and automated incorporation of generated tests.
- Authored a comprehensive deployment guide covering **Docker Compose, Helm, and FluxCD GitOps**, enabling rapid, secure deployment across varied environments and workflows.

Moodie

Kubernetes, Docker, VADER, React, Node.js, Reddit-API, Vite

September 2023

- Developed a **React-Node.js** application to evaluate digital-social well-being by performing **sentiment analysis** on **Reddit posts** using VADER, enabling assessment of negativity, positivity, neutrality, and overall mental health.
- Validated modern deployment strategies by simulating production environments through comprehensive testing and deployment on a local **Kubernetes clusters**.

LIFE PHILOSOPHY

"When the path whispers your deepest passions, wonders are born."

EDUCATION

M.Sc. in Computer Science

Technische Universität Dresden, Germany

October 2025 – September 2027

B.E in Computer Science

Visvesvaraya Technological University, India

December 2021 – June 2025

SKILLS

Programming Languages

Golang C# Python Java
C Embedded-C

Web & Backend

.NET React Node.js HTML
CSS Javascript

DevOps & Infrastructure

Kubernetes Docker GitOps Terraform
Helm FluxCD Prometheus Grafana

AWARDS & CERTS

- Top 1%** in GSSoC ext'2024.
- Super Contributor** in Hacktoberfest 2024 & 2025.
- HCLSoftwareU** DevOps Foundation.
- AZ-305:** Azure Architect Design (Prereq).
- AWS** Cloud Practitioner Essentials.
- Postman API Fundamentals Student Expert.

LANGUAGES

- Advanced** : English (C1), Kannada
- Intermediate** : Hindi
- Beginner** : German (A1)
